Showreel Specification for the Sara Putt Associates website

Please use this guide for exporting & delivering showreel videos for the www.saraputt.co.uk website. We have listed our recommended specifications below.

Video Specification

Codec	High Profile H.264
Frame Rate	Native frame rate ('constant' frame rate NOT 'variable' frame rate)
Resolution	720p HD - 16:9 aspect ratio, 1280 × 720
	OR 1080p HD - 16:9 aspect ratio, 1920 × 1080
Data Rate	720p - variable bit rate 5,000-10,000 kbits/s
	OR 1080p - variable bit rate 10,000-20,000 kbits/s

Audio Specification

Codec	AAC-LC (low complexity)
Data Rate	320 kbits/s
Sample Rate:	48 kHz

Delivery

Please deliver your video file via WeTransfer (<https://www.wetransfer.com>) to ben@reactivegraphics.co.uk.

Please notify us by email at ben@reactivegraphics.co.uk when you send your file so that we are aware of your requirement and we know to expect a message from WeTransfer.
